Senate Group Lists Retired in Top Jobs

WASHINGTON—At least 41 old soldiers decided that a hitch with the civilian arm of the government was in order before they faded away, according to figures just published in a report by the Senate Commerce Committee. The statistics were compiled by the Civil Service Commission; they show how many retired officers of flag or general rank (O-7 through O-10) were on the government payroll as of Nov. 30, 1964.

In cases where no combined pay figure is given, the retired officer involved is paid by the day.

All retired officers working for the National Aeronautics and Space Administration (NASA) are exempt from Dual Compensation pay restrictions and they receive their full retired pay, plus their civilian salaries.

Two of the retired officers, Air Force's Mundy and Navy's Curtis, are exempt from dual compensation limitations because their retired pay is based on combat disabilities.
